L.RAPHAEL Science of Beauty

L.RAPHAEL GENÈVE'S COMMITMENT IN SCIENTIFIC RESEARCH

L.RAPHAEL Genève is a pioneer in oxygen and ultra-sounds treatments, and has truly revolutionized the skin-care science with its exclusive LEC 40, a lipid complex associating lecithin, omega-3 proteins and vitamins to allow the active ingredients from the L.RAPHAEL Genève products to penetrate the skin more deeply. Ronit Raphael, Founder and President, in collaboration with Dr. Gumener, and an expert research team led by Professor Shinitzky, has developed a comprehensive menu of ultraluxe, high-performance face and body treatments. Specific treatments include Oxy-Tech anti-aging treatments, anti-pigmentation treatments, slimming treatments and Ultra-Gravity firming treatments. All of L.RAPHAEL's proprietary treatments are uniquely formulated to reach beyond the surface of skin. Here, they can be most effective in stimulating collagen production to dramatically reverse the visible signs of aging.

THE L.RAPHAEL GENÈVE'S PHILOSOPHY: THE 7 FOUNDATIONS OF BEAUTY

The philosophy of L.RAPHAEL Genève is based on the 7 Foundations of Beauty - a holistic, multi-dimensional and personalized approach to Beauty that incorporates medical, nutrition, physical activity, aesthetics, age ma-

nagement, stress management and leisure. True beauty radiates from the inside out - when the body and mind are in perfect harmony. Each L.RAPHAEL Genève facial, massage and body treatment was specifically developed to invigorate the senses, restore peace of mind, and deliver scientifically advanced and long-lasting results. L.RAPHAEL Genève believes in integrating these 7 pillars into one's lifestyle to look and feel healthy and visibly younger.

THE L.RAPHAEL GENÈVE SKINCARE LINE

L.RAPHAEL proposes four lines of scientifically innovating skincare products for the face, segmented by age group and skin type, as well as a line of firming and slimming skincare products for the body. All products offer active ingredients to generate concrete results and improve the skin appearance, including anti-aging benefits. L.RAPHAEL Genève also proposes a line of products called Beyond Spa. The range includes massage oils for the body, masks and scrubs, formulated with minerals from the Dead Sea and infused with aromatic and therapeutic essences. All L.RAPHAEL Genève skincare products have been developed to work in synergy with the L.RAPHAEL Genève treatments and optimize their effects.

LIFESTYLE

Ronit Raphael is one of the most dynamic and positive persons I have met, with her great passion for skin care and beauty, she is an example of a modern woman, who manages a successful business, a happy family life and very active social life. Jetting between her many destinations of L.Raphael and homes, she finds the perfect balance and always looks great after 12 hours of travelling and meetings. What is her secret?

The Temple of Beauty in Geneva was the first **L.Raphael Maison** dedicated to professional beauty and anti-aging treatments for women and men

based on Ronit Raphael's inspiration for the creation of L.RAPHAEL Genève, which grew out of personal necessity. A facial burn at the age of 18 fueled her passionate interest in skincare. She launched L.RAPHAEL Genève in 1986 and was awarded the Ernst & Young Entrepreneur of the Year award in 2003.

L.RAPHAEL Genève is the result of the collaboration between Ronit Raphael, Professor Meir Shinitzky, Dr. Raphaël Gumener, each a pioneer in their respective fields. This Swiss luxury beauty brand, leader in anti-aging treatments is a pioneer in oxygen and

ultra-sounds treatments, and has truly revolutionized the skincare science with its exclusive LEC 40.

With L.RAPHAEL currently operating in some of the most beautiful cities and resorts around the world such as Geneva, Verbier, Cannes, New York and now Los Angeles, we know that Ronit Raphael is truly aiming at the stars with her pioneer vision and perfection for details. L.Raphael will always be my favorite peaceful beauty sanctuary, where ever I am in the world...
