

POWER TRIP

Tucked away on the seventh floor of the Grand Hyatt Cannes Hotel Martinez is luxury beauty spa L.Raphael, a destination used by festival regulars to escape the crush of the Croisette and access the firm's world-renowned technology-driven treatments. L.Raphael always uses the Cannes Film Festival to launch a new beauty treatment each year (in 2015, it was the Diamond OxyLift Facial). New for the 69th festival is a pair of treatments designed to be used as a one-two punch: the Ultra Power C Lift (890 euros) and its Power C Cure (790 euros). The antiaging lift is meant to rejuvenate skin with a combination of an ultrasound and an electrical pulse "with a strong antioxidant cocktail," a rep for the spa tells *Pret-a-Reporter*. But best results come when it's packaged with the Power C Cure, a 30-day treatment that requires a daily mask. *C'est magnifique!*
