

Downtime at the Fest? Start a Face-Lift

Luxe spa L.Raphael's newest treatment begins in Cannes, ends in Geneva

L.Raphael, the luxury beauty spot in the Grand Hyatt Hotel Martinez, is offering a new anti-aging procedure during this year's festival. The 4D Soft Facelift, created by L.Raphael's research and development team, headed by Dr. **Raphael Gumener** in Geneva, Switzerland, employs four treatments: Oxy Cure, 4D lift radio frequency, dermal fillers and microfibers. According

to a spa rep, the lift provides lasting results with little to no recovery time — but requires 10 weeks because there are two weeks of downtime between each of the procedure's five steps. It also requires travel: Only the first two steps are available in Cannes, the others at the Temple of Beauty L.Raphael in Geneva. Fees start at 1,850 euros and go up to 14,700 euros. — c.g.

→ L.Raphael in the Martinez offers two of the four 4D Soft Facelift treatments.
