## NYC'S COOLEST SPAS

### L.RAPHAEL Beauty Spa at the Four Seasons Hotel New York

**L.RAPHAEL Beauty Spa at Four Seasons Hotel New York**, the world-class skincare brand's first location in North America. A luxury destination for city dwellers and visitors alike, the location offers the most effective in proprietary treatments and breakthrough technologies that have catapulted L.RAPHAEL to the forefront of anti-aging skincare. The 4,500 square foot space boasts ten treatment rooms including two luxury couples' suites, a full-service hair salon, two nail stations, saunas in the men's and women's locker rooms as well as a retail boutique offering the full line of L.RAPHAEL premium skincare products. The comprehensive treatment menu includes facial, body and massage therapies, hair and nail care, and makeup application.

Ronit Raphael, is a successful business woman and a leader in skin care and anti-aging treatments. Her interest in skin care grew from personal experience. At the age of 18, she suffered from minor acne, and tried a chemical peel that seriously damaged her skin and left her with second degree burns. She spent the next few years meeting with scientists and dermatologists all over the world to learn everything she could about skin care. This quest became the driving force to team up with Professor Meir Shinitzky and Doctor Raphael Gumener to create L.RAPHAEL Geneve. L.RAPHAEL opened its flagship store in Geneva in 2005 and currently operates in some of the most beautiful cities and resorts around the world. In 2012 L.RAPHAEL launched its first Beauty Spa at the famous Hotel Martinez in Cannes, South of France and in 2013 two locations in NYC: L.RAPHAEL Beauty Spa at the Four Seasons Hotel and L.RAPHAEL Temple of Beauty in the heart of Midtown Manhattan, followed by Spa Montage Beverly Hills.

## SIGNATURE TREATMENT:

**OXY CURE C** by L.RAPHAEL L.RAPHAEL is a Global Pioneer in Oxygen Treatments. After years of research L.RAPHAEL's R&D department, led by its head of the department, Prof. Meir Shinizky, one of the world's foremost scientists in cell membrane research, has succeeded in developing a revolutionary oxygen treatment to rejuvenate the quality and appearance of the skin in an unprecedented way. Without an appropriate quantity of oxygen, skin cells slow their metabolism, divide less and have a shorter life spans. This results in thinner and dryer skin, formation of small folds, wrinkles and spots and loss of skin's elasticity.

Oxygen provides the skin with the reservoir of energy it needs for proper cell function. An Oxy Cure C treatment by L.RAPHAEL, based on oxygen jet and highly concentrated vitamin C, uses an advanced medical equipment and a unique & revolutionary anti-aging combination. L.RAPHAEL's flagship technology introduces pure oxygen combined with physiological water and a unique anti-aging compound, Pure lecithin, Vitamin C and the exclusive LEC-40 complex, to rejuvenate the skin and dramatically reverse the visible signs of aging.

The patented LEC-40 formulae combines omega 3 and vitamins A, C, and E with pure lecithin to enable active ingredients to penetrate deep into the skin. Studies\* reveal that exposure to oxygen in high concentration and high stream stimulates the endothelial cells. The thriving of these cells results in the formation of new capillary vessels, and a general acceleration of blood flow. Together, these benefits create a great opportunity to introduce other vitamins and effective anti-aging agents, achieving superior anti-aging benefits: a unified skin texture, a lifting and brightening effect, improved elasticity and skin revitalization.

Oxy Cure C Treatment is optimal to

- ! Prevent early aging of the skin
- ! Provide a strong anti-oxidant protection
- ! Increase production of collagen
- ! Accelerate wound healing process
- ! Protect the skin from free radical damage
- ! Brighten age spots and skin's discoloration
- ! Restore skin's quality, texture and appearance
- ! Improve dramatically all visible signs of aging
